

MyDay[®] toric is now available in the same prescription range as **Biofinity[®] toric**.

The features you'll love in MyDay[®] toric:

- The same great design in your Biofinity[®] toric lenses for a stable fit for consistently clear vision.
- The same advanced material design found in Biofinity[®] toric locks in water—so you can have incredible comfort all day long.
- **UV blocker** helps protect your eyes against the transmission of ultraviolet rays, helping support your eye health.†
- **Net plastic neutral**,^{1,2,3} through our partnership with Plastic Bank; so you can wear contact lenses that help improve both your vision and the planet.
- **Convenient daily disposable** with no cleaning required or solution costs.

If you like Biofinity[®] toric, but have been wanting to try daily disposable contact lenses, ask your eye care practitioner about MyDay[®] toric.

† UV-blocking contact lenses help provide protection against transmission of harmful UV radiation to eye but are not substitutes for protective UV-absorbing eyewear, such as UV absorbing goggles or sunglasses, as they do not completely cover the eye or surrounding area. Continue to use UV-absorbing eyewear as directed by your eye care professional. UV-blocking contact lenses help provide protection against transmission of harmful UV radiation to eye but are not substitutes for protective UV-absorbing eyewear, such as UV absorbing goggles or sunglasses, as they do not completely cover the eye or surrounding area. Continue to use UV-absorbing eyewear as directed by your eye care professional. 1. MyDay[®] daily disposable orders includes MyDay[®] daily disposable, MyDay[®] daily disposable toric, and MyDay[®] daily disposable multifocal products sold and distributed by CooperVision in the US. 2. Net plastic neutrality is established by purchasing credits from Plastic Bank. A credit represents the collection and conversion of one kilogram of plastic that may reach or be destined for waterways. CooperVision purchases credits equal to the weight of plastic in MyDay[®] daily disposable orders in a specified time period. MyDay[®] daily disposable plastic is determined by the weight of plastic in the blister, the lens, and the secondary package, including laminates, adhesives, and auxiliary inputs (e.g. ink). 3.
