

ALWAYS ON.

Without signs of slowing down – adults in the U.S. spend a significant amount of time on digital devices.¹ We all rely on digital devices to stay connected, educated and entertained, and many may experience symptoms of digital eye strain when viewing digital screens for extended periods.²

Not to worry. **MyDay Energys**[®] & **Biofinity Energys**[®] contact lenses with DigitalBoost[™] and Aquaform[®] Technology can help with eye tiredness and dryness: key symptoms associated with digital device use.³

Make an appointment to find out if the monthly or daily replacement lenses are right for you.

Incredible comfort
designed for today's world.³
