

# Did you know

## we prescribe net plastic neutral<sup>†</sup> contact lenses so you can correct your vision responsibly?

That means for every box of net plastic neutral contact lenses you buy, Plastic Bank® collects and converts an equal amount<sup>†</sup> of plastic through their global network, to help reduce ocean-bound plastic.

[Schedule an eye exam today to try a net plastic neutral<sup>†</sup> contact lens.](#)

<sup>†</sup> Amount is defined as weight. Net plastic neutrality is established by purchasing credits from Plastic Bank. A credit represents the collection and conversion of one kilogram of plastic that may reach or be destined for waterways. CooperVision purchases credits equal to the weight of plastic in clariti 1 day, MyDay daily disposable, MiSight 1 day and Biofinity orders in a specified time period. clariti 1 day, MyDay daily disposable, MiSight 1 day and Biofinity plastic is determined by the weight of plastic in the blister, the lens, and the secondary package, including laminates, adhesives, and auxiliary inputs (e.g. ink).
